CONTENTS

VOLUME 16, ISSUE NOS. 1–4, 1981

Issue No. 1, January–March

The Ordovician–Silurian Boundary in the Garth area of southwest Powys, Wales: A. Williams and A. D. Wright 1

Peralkaline rhyolites from the Ordovician Tweeddale Lavas, Peeblesshire, Scotland: M. F. Thirlwall 41

Jointing and minor tectonics of the N. Crop of the South Wales Coalfield between Kidwelly and Black Mountain, S. Wales: J. C. Roberts 45

Sedimentation, cleavage and tectonic thinning in the Aberystwyth Grits between Clarach and Wallog, Cardigan Bay: A. Wood 57

Fold and cleavage development within Cambrian metasediments of the Vale of Ffestiniog, North Wales: T. R. W. Hawkins and F. G. Jones 65

Aspects of the geology of the south Irish Sea: R. J. Whittington, P. F. Croker and M. R. Dobson 85

BOOK REVIEWS 89

Issue No. 2, April–June

A tunnel section through a prograding Namurian (Arnsbergian, E_{2a}) delta, in the western Bowland Fells, north Lancashire: E. W. Johnson 93

Indexed or abstracted by 'Current Contents'; 'Science Citation Index' and other leading Indexing/Abstracting Services

Old Red Sandstone Sedimentation—An example from the Brownstones (highest Lower Old Red Sandstone) of South Central Wales: I. P. Tunbridge 111

The Boyndie Syncline, a D_1 structure in the Dalradian of Scotland: J. E. Treagus and J. L. Roberts 125

Faunas from the Upper Silurian (Upper Ludlovian) in the Ludlow—Much Wenlock District, England: D. D. J. Antia 137

SHORT COMMUNICATION

The structural setting of the Main Donegal Granite; a reply to comments on a recent interpretation: D. H. W. Hutton 149

BOOK REVIEWS 153

CONFERENCE REPORT 154

Issue No. 3. July–September

The 'Old Red Sandstone' of County Mayo, Northwest Ireland: J. R. Graham 157

A note on the Glacial and Late Glacial history of Caithness: D. Flinn 175

The Ashgill rocks of the Glyn Ceiriog district, North Wales: N. Hiller 181

Ashgill trilobite faunas from the Llŷn Peninsula, North Wales, U.K.: D. Price 201

BOOK REVIEW 217

CONFERENCE REPORT 218

Issue No. 4, October–December

***Glyptograptus? persculptus* (Salter), its tectonic deformation, and its stratigraphic significance for the Carys Mills Formation of N.E. Maine, U.S.A.:** R. B. Rickards and J. Riva 219

A note on the stratigraphic relationship of the Leven Schist and Monadhliath Schist in the Central Highlands of Scotland: P. J. Haselock and J. A. Winchester 237

Carbon isotopic change at the base of the Upper Permian Zechstein sequence: M. Magaritz, P. Turner and K-C. Käding 243

***Beaconites antarcticus*: a giant channel-associated trace fossil from the Lower Old Red Sandstone of South Wales and the Welsh Borders:** J. R. L. Allen and B. P. J. Williams 255

Palynofloras from Tournaisian lacustrine and tidal sequences in Slieve Bloom, Counties Laois and Offaly, Ireland: J. B. Keegan and J. Feehan .. 271

Sandy gravel accumulation in a fluvial environment: C. Blacknell 287
